

Peri-cene WP4b: Manchester wider region & Irwell catchment: Peri-urban climate map layers

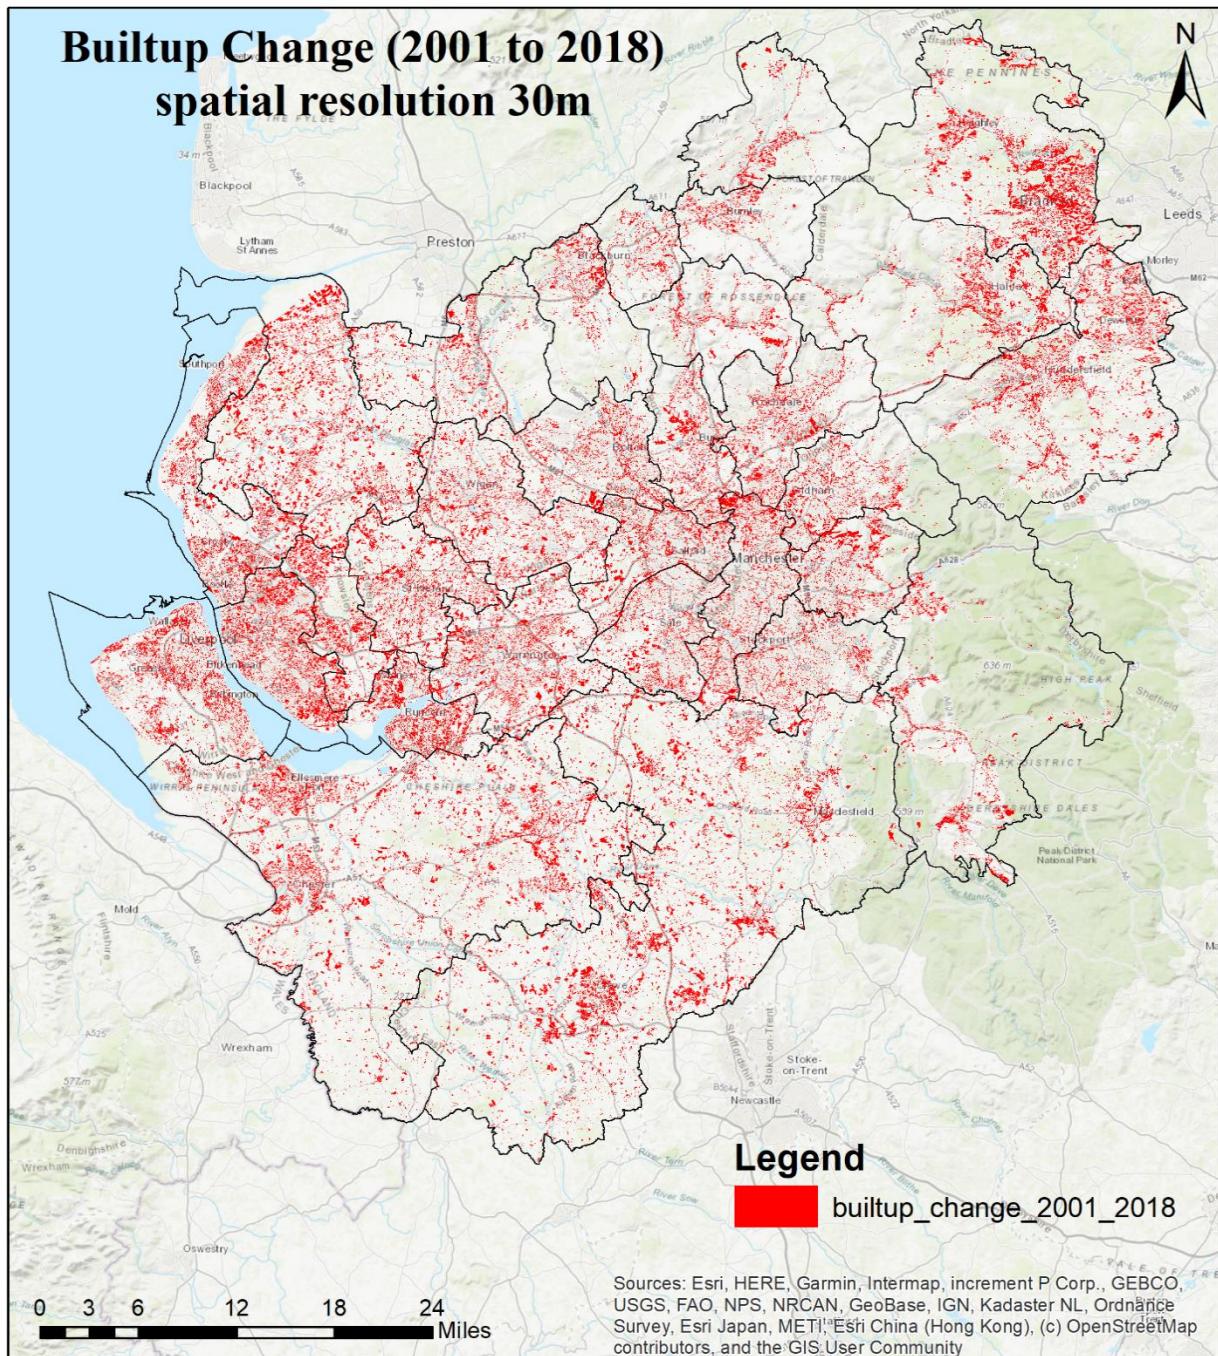

MS 12-10-20a

CONTENTS

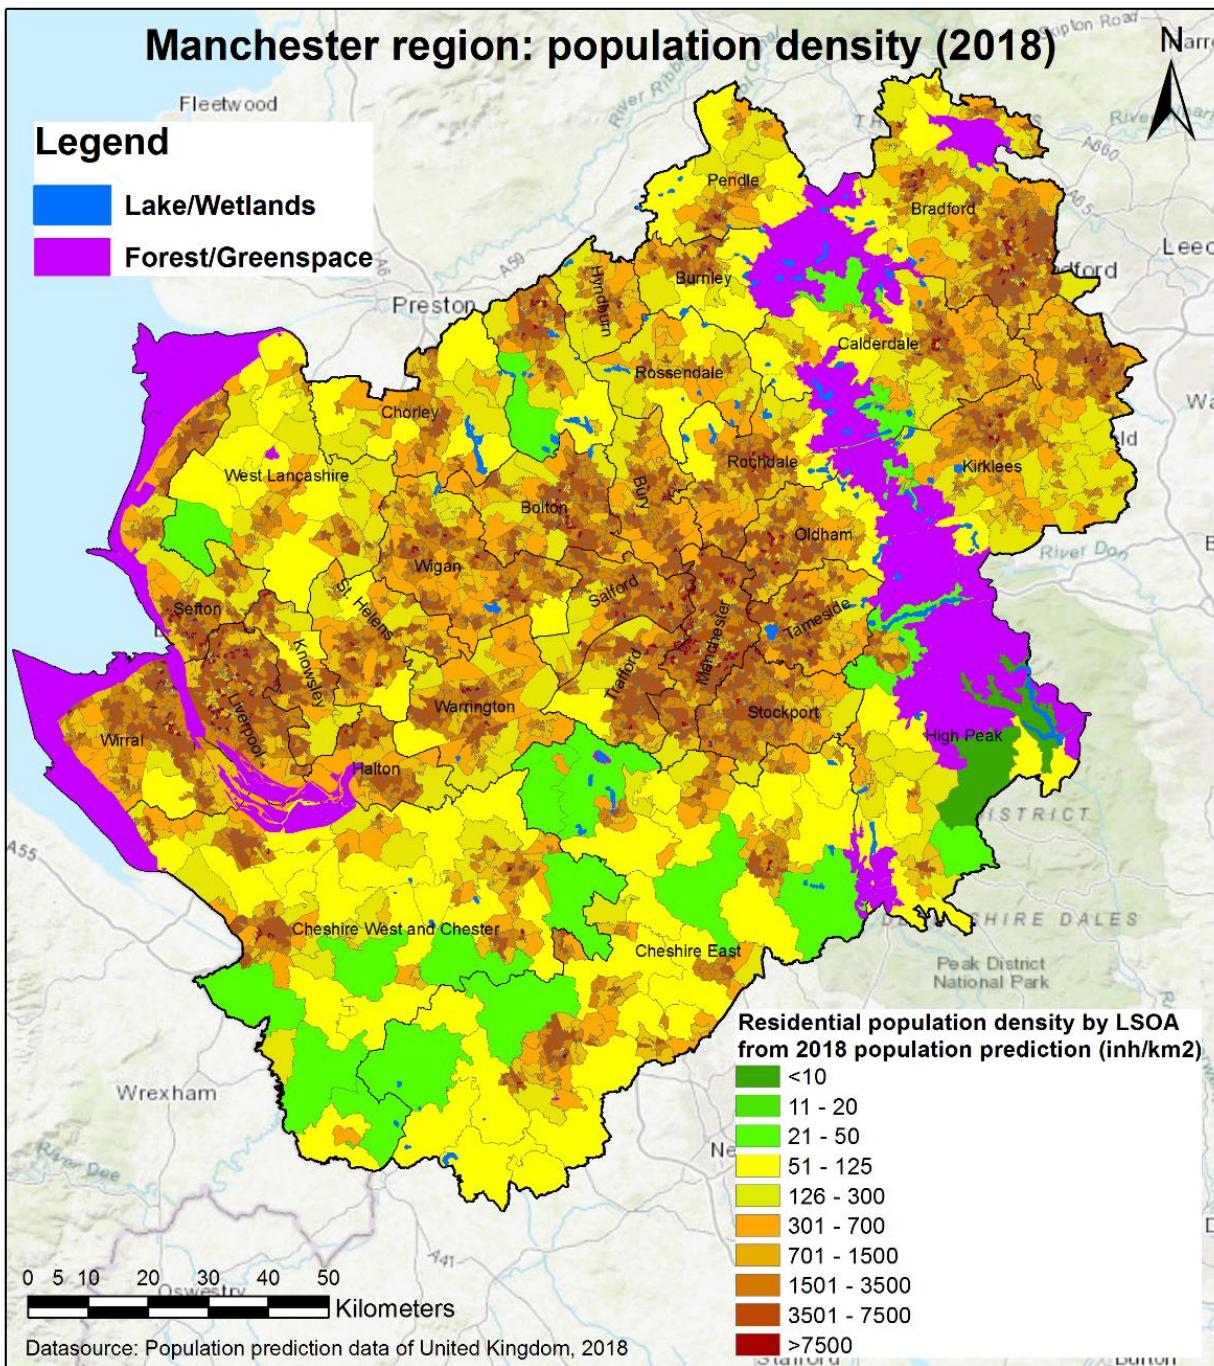

1.	PERI-URBAN THEME.....	2
a)	Built Up Change	2
b)	Population Density	3
c)	Population Density Change	4
2.	CLIMATE THEME	5
a)	Flood risk areas and peri urban zonation	5
b)	Forest fire areas & peri urban zonation	6
3.	VULNERABILITY THEME.....	7
a)	Land/Farm Vulnerability	7
b)	Annual aridity	8
c)	Topography & flood risk	9
	d) Groundwater Potential.....	10
4.	PRIORITIES & OPPORTUNITIES.....	11
a)	Built up change & water system.....	11
b)	Built up change & flood risk	12
c)	eco-opportunities	13
d)	Natural Features	14
E)	Overlay With Local Zones	15
	Key to local areas:.....	15

1. PERI-URBAN THEME

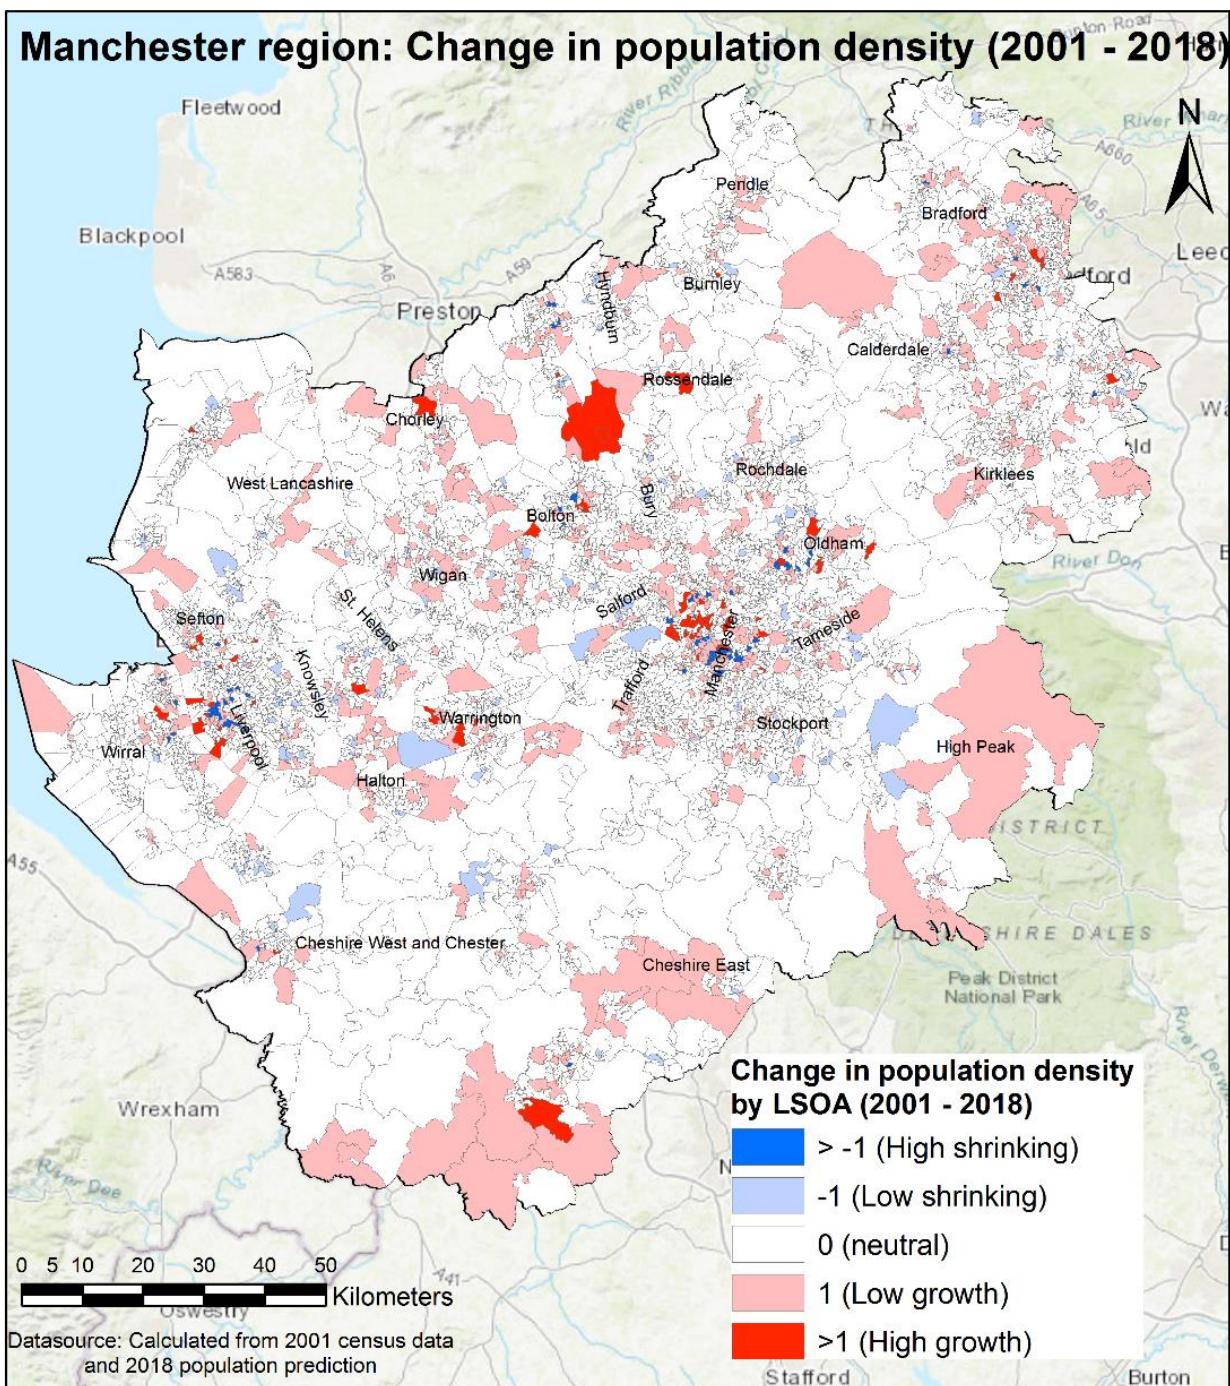

A) Built Up Change

B) Population Density

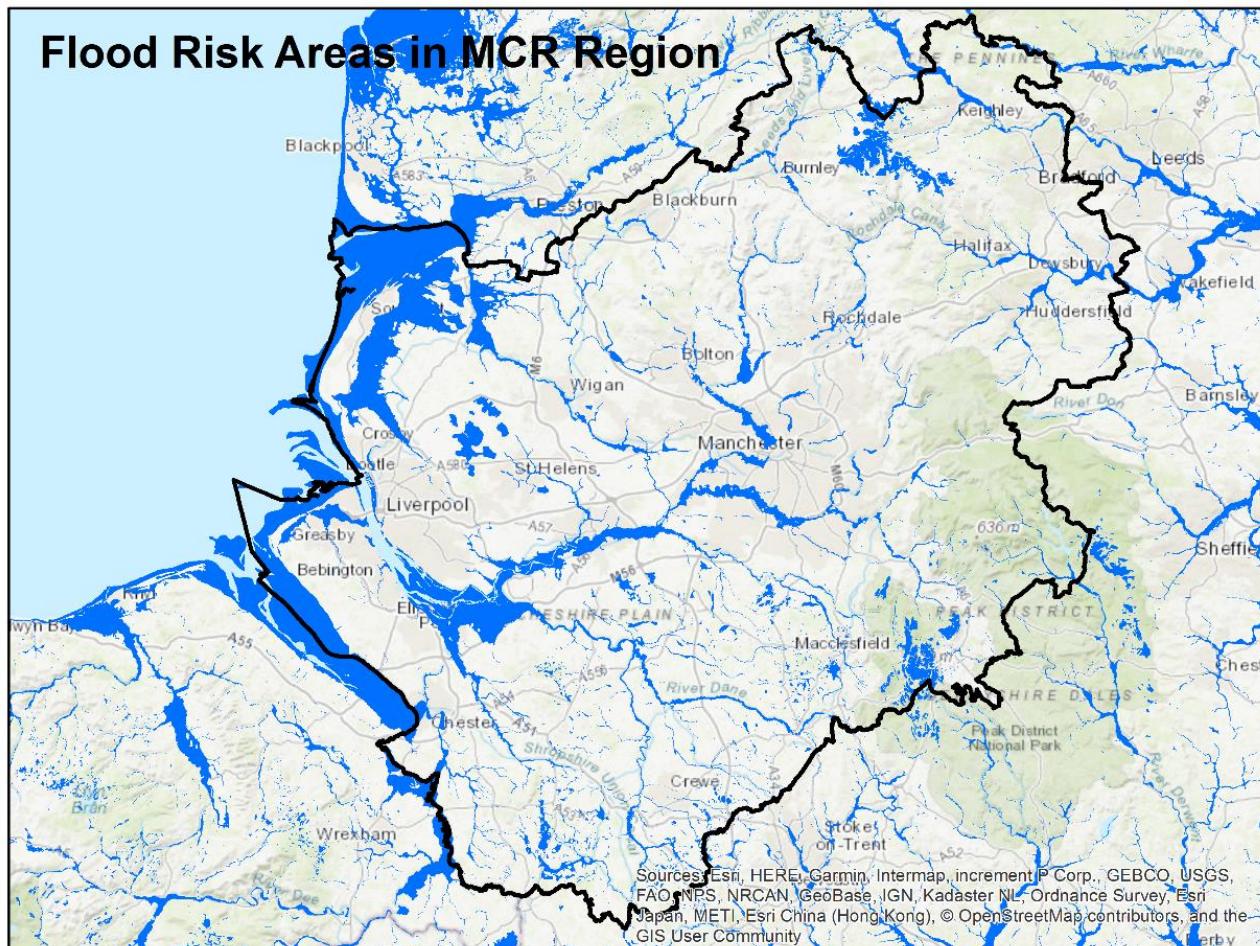

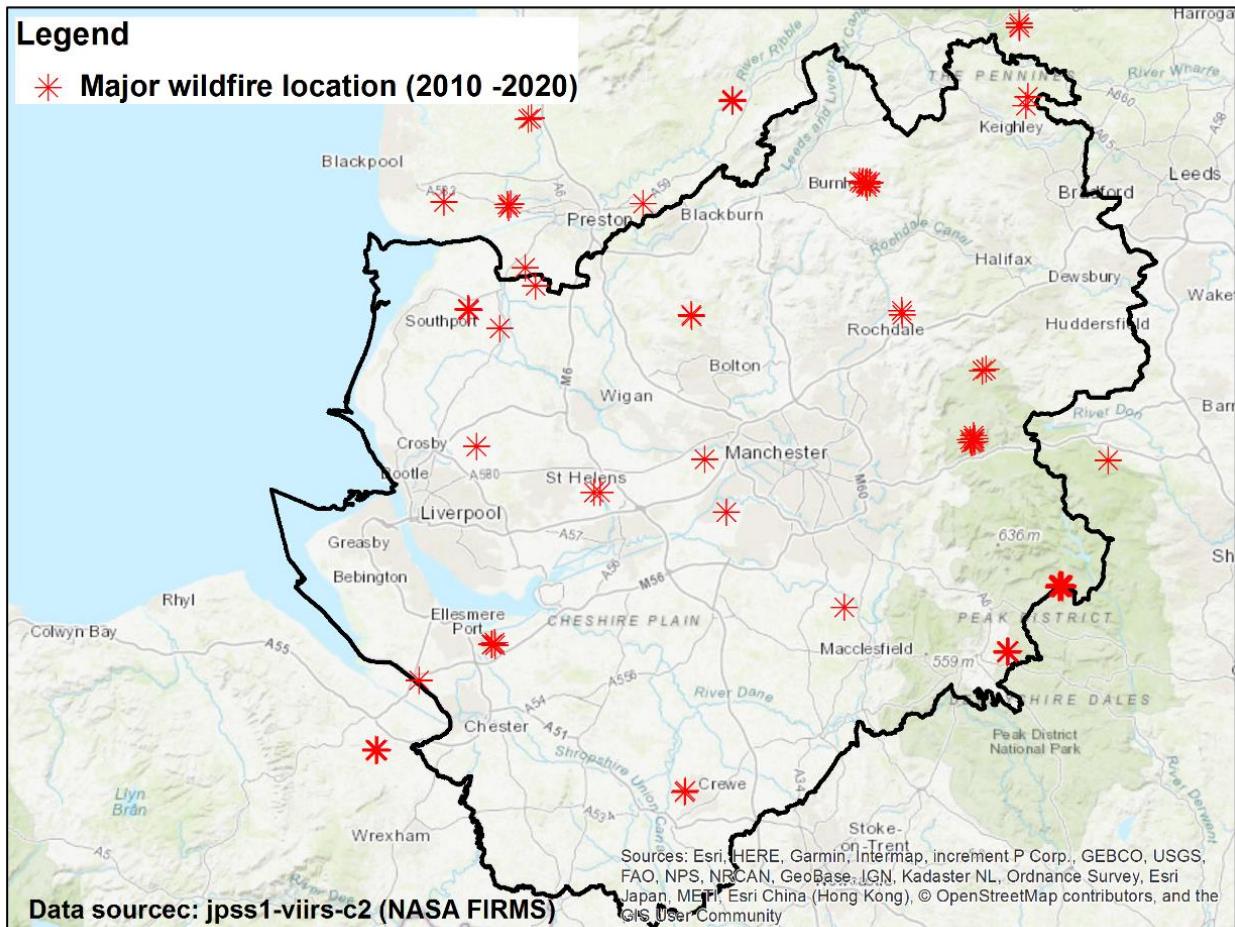

C) Population Density Change

2. CLIMATE THEME

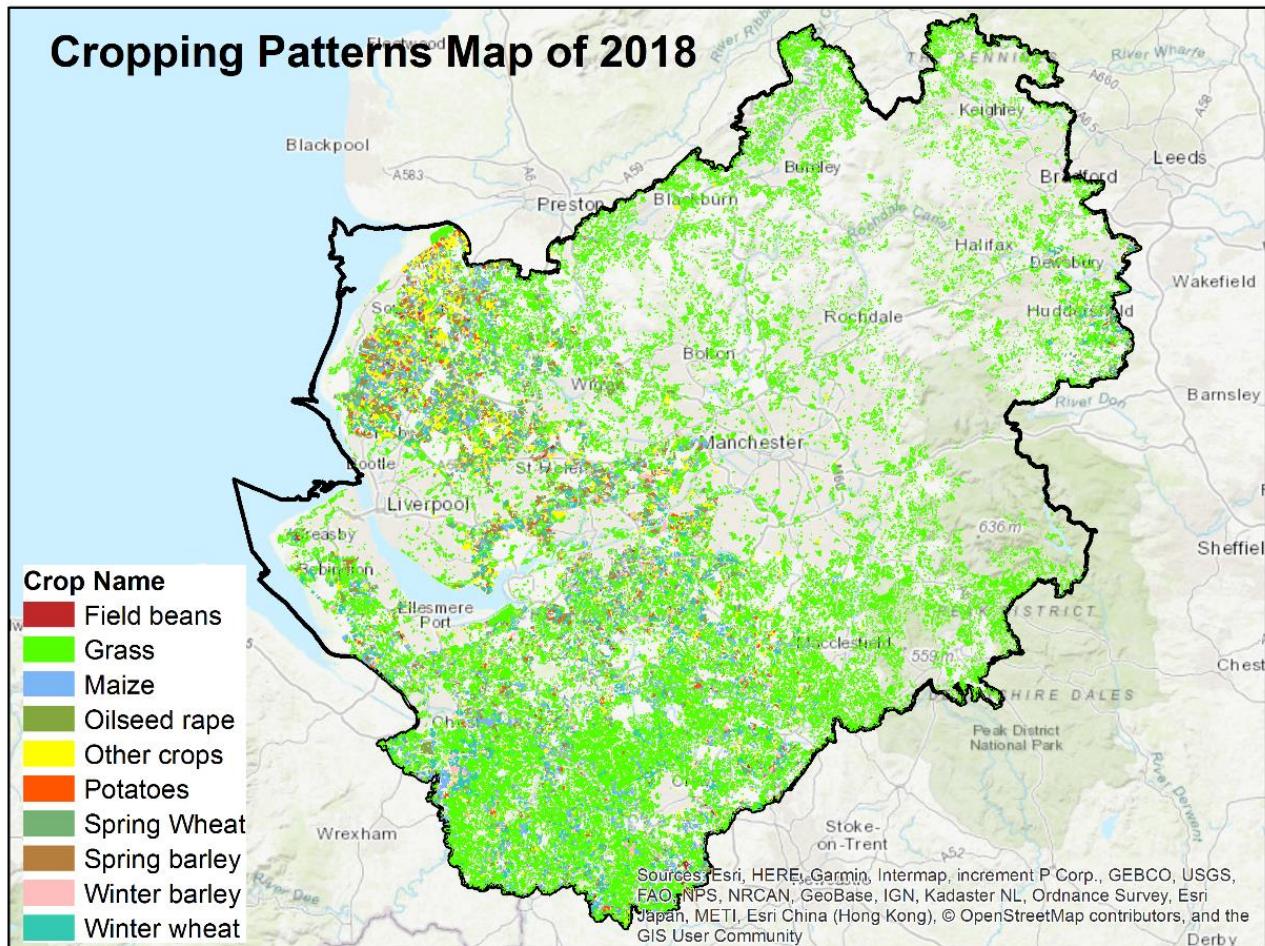

A) Flood risk areas and peri urban zonation

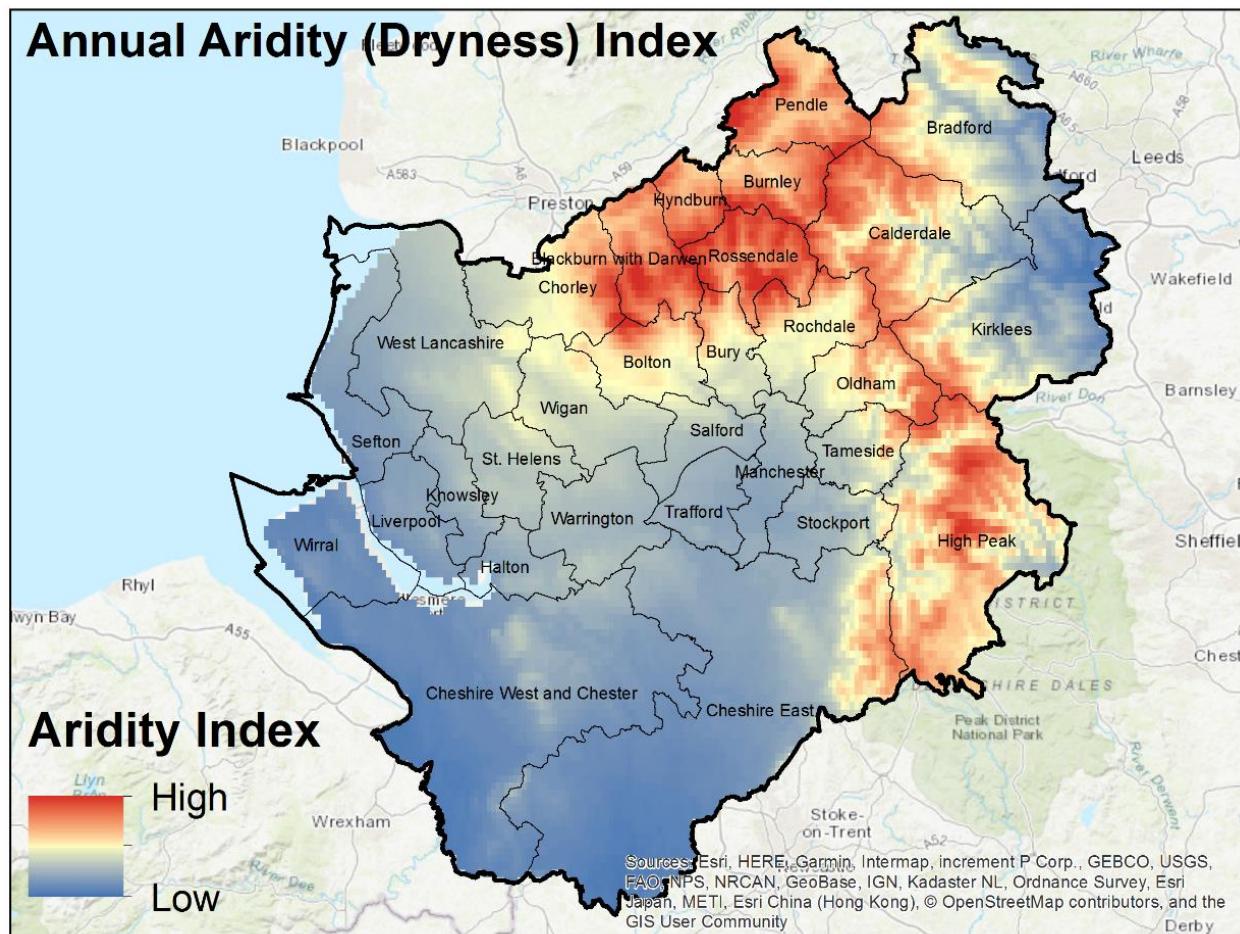

B) Forest fire areas & peri urban zonation

3. VULNERABILITY THEME

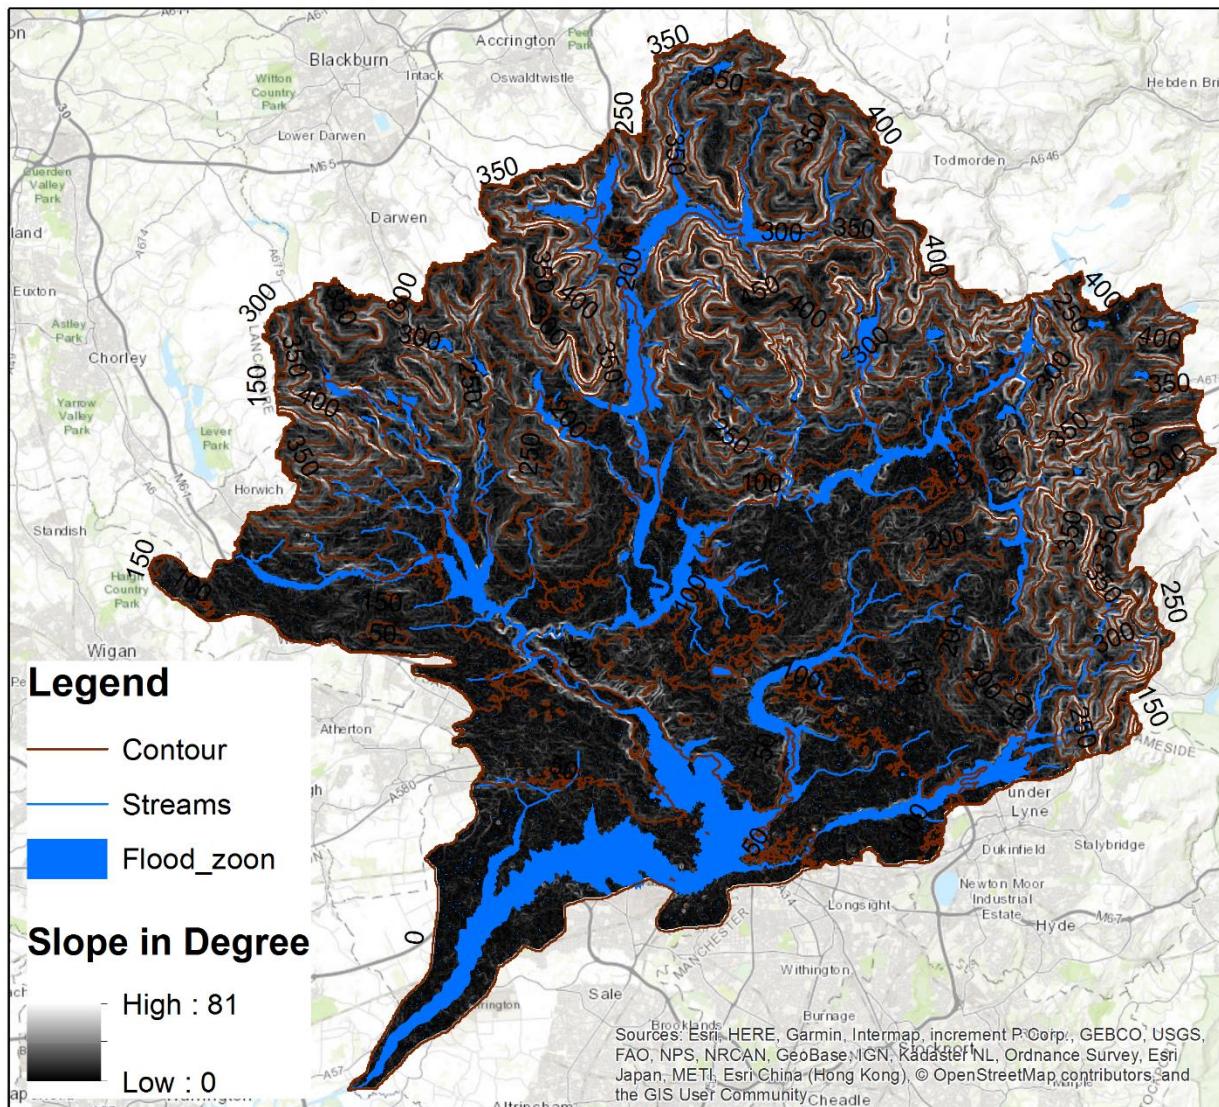

A) Land/Farm Vulnerability

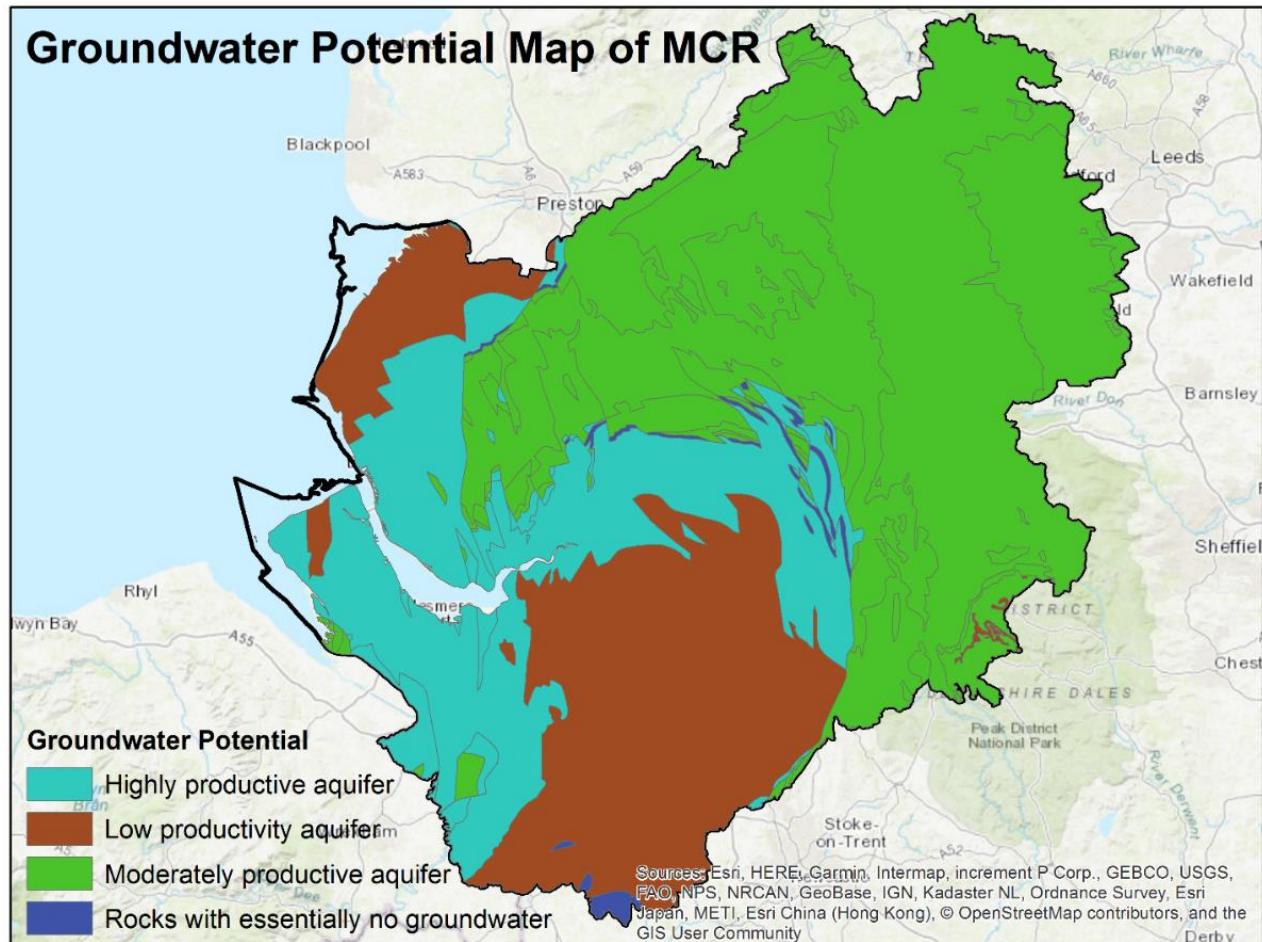

B) Annual aridity

C) Topography & flood risk

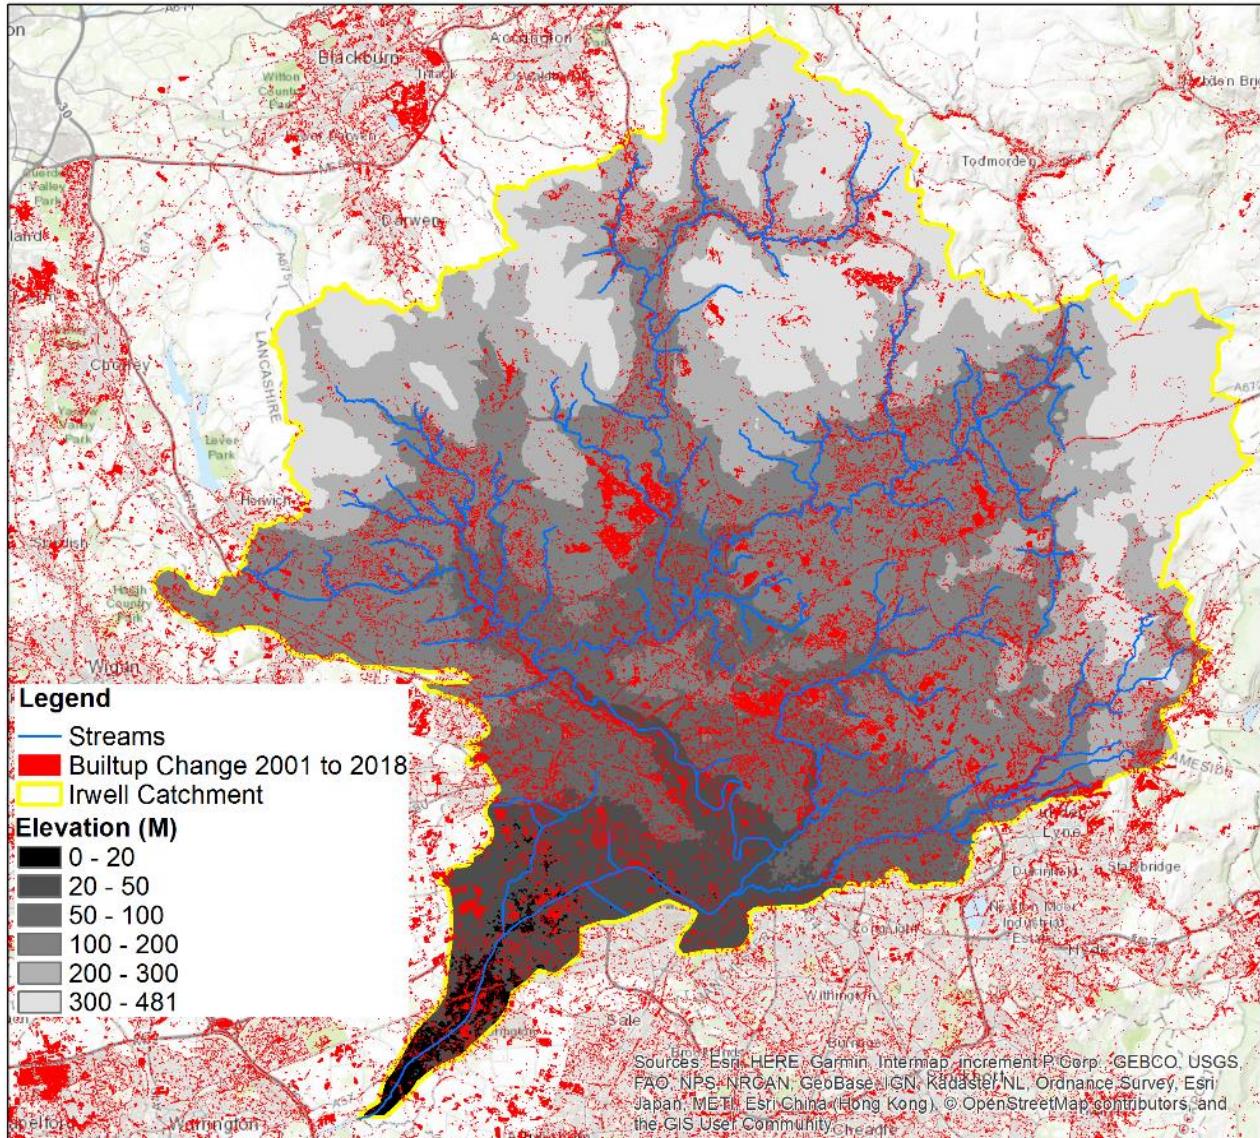

D) Groundwater Potential

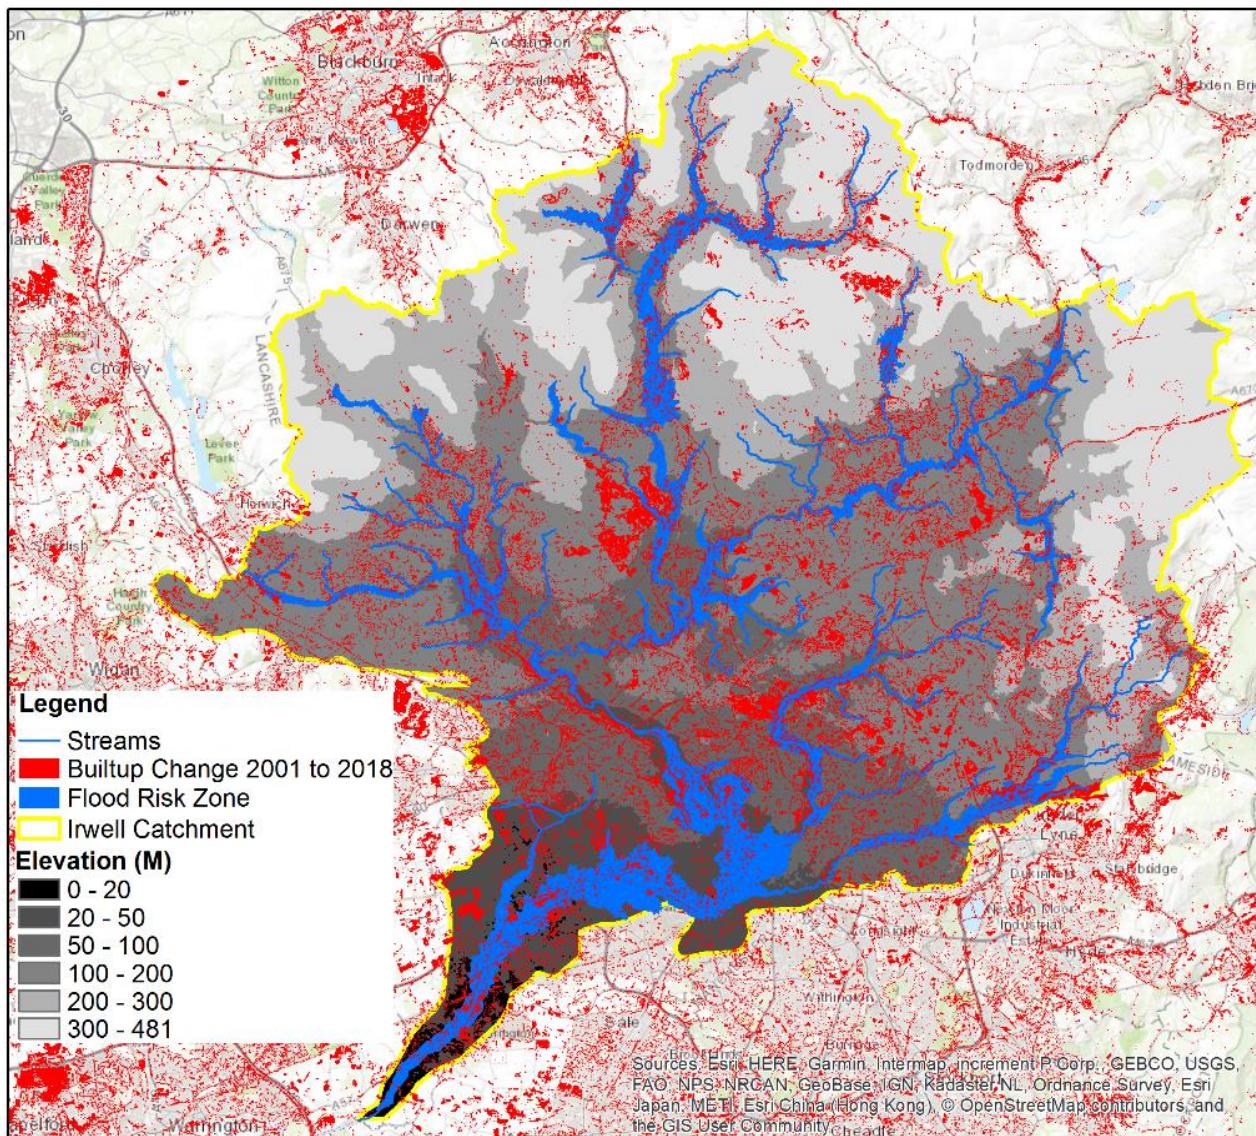

4. PRIORITIES & OPPORTUNITIES

A) Built up change & water system

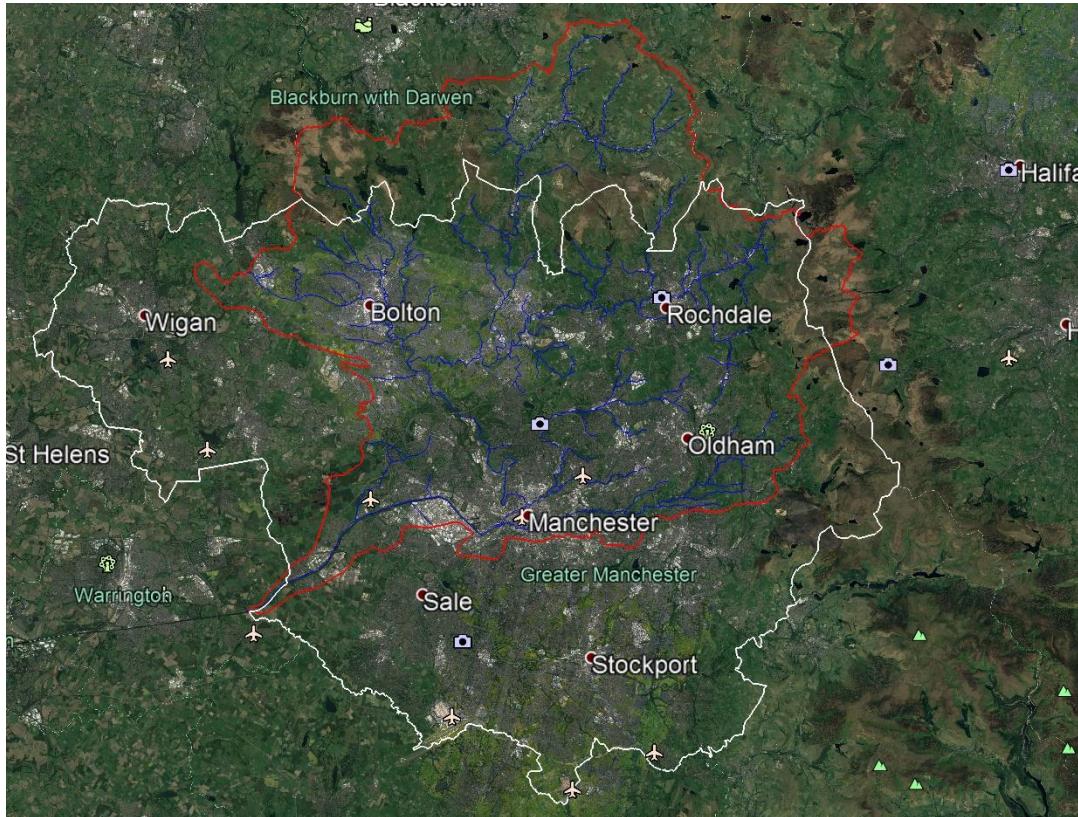

B) Built up change & flood risk

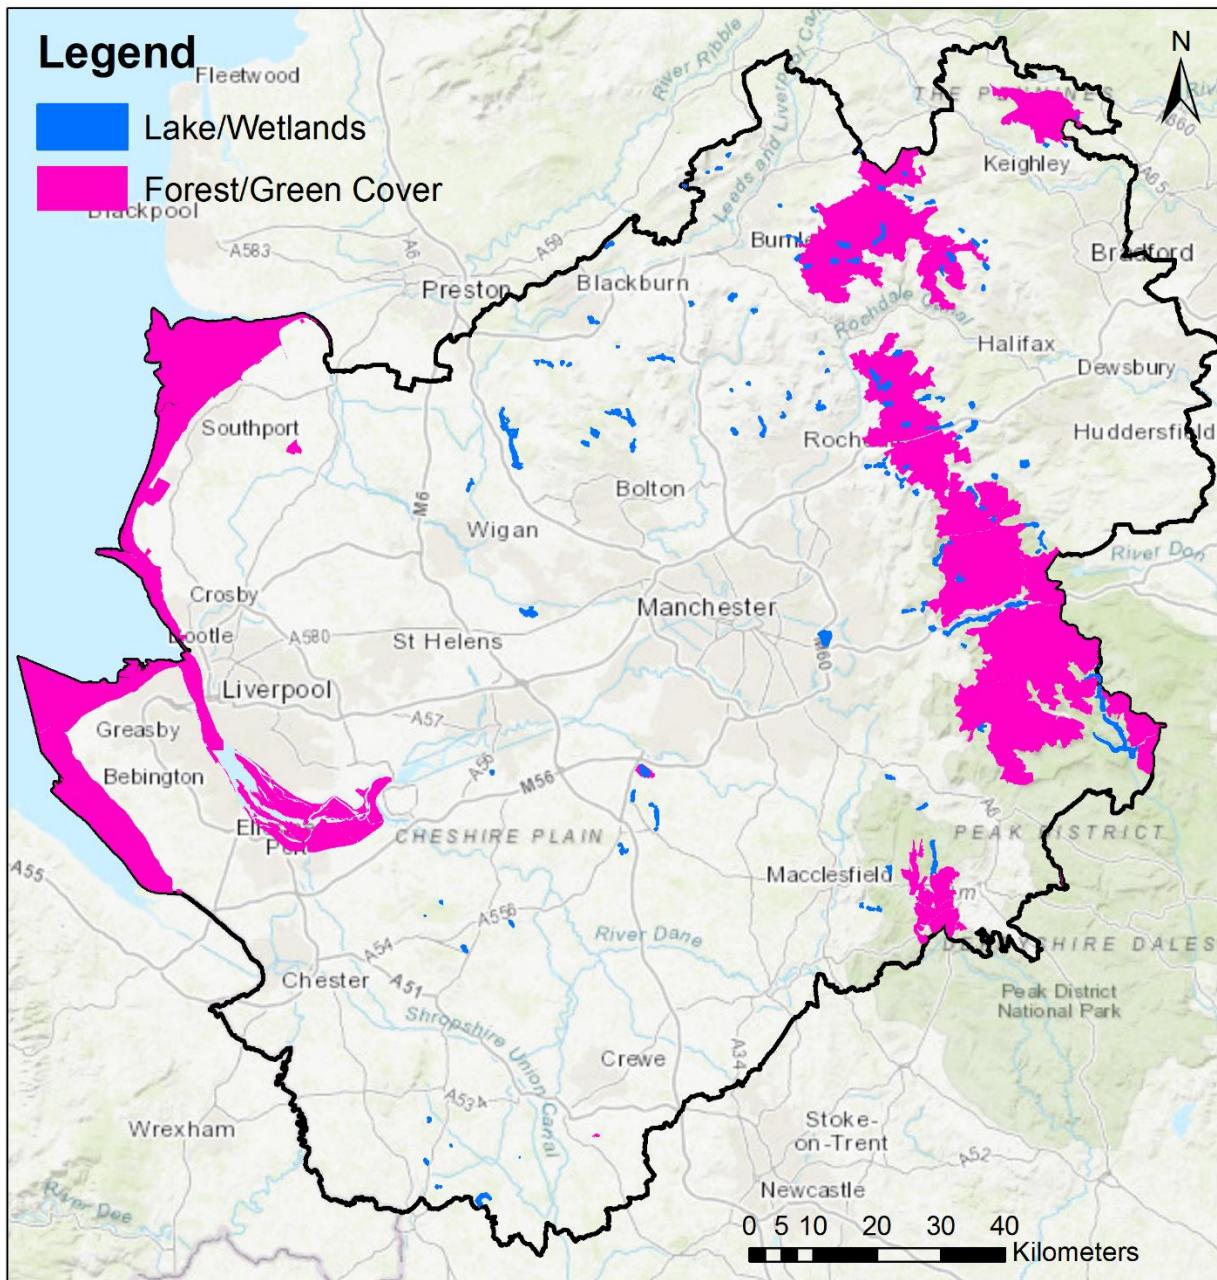

C) ECO-OPPORTUNITIES**Forest****Priority Wetlands areas in GM Peri urban areas**

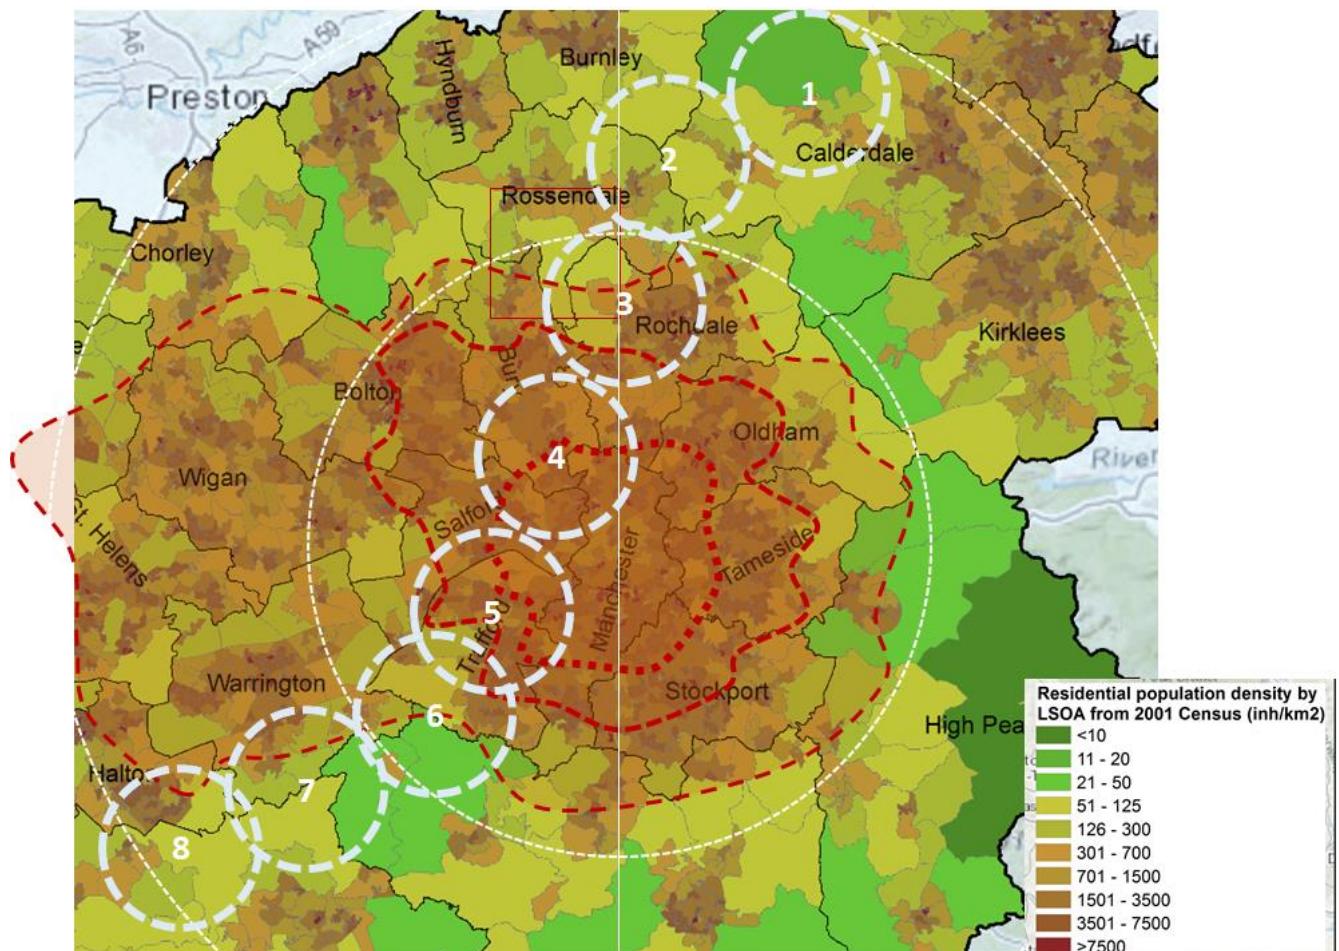

- Dove Stone Reservoir, Greenfield
- Hollingworth Lake, Rochdale
- Sale Water Park and surrounding, Sale
- Chorlton areas
- Manchester Ship Canal, Manchester
- Healey Dell Nature Reserve
- Greenbooth Reservoir
- Werneth Low Country Park
- Tandle Hill Country Park

D) Natural Features

E) Overlay With Local Zones

KEY TO LOCAL AREAS:

the relevant bands / thresholds are defined for each city case study by analysts / stakeholders.

The potential contours are defined in qualitative scale: 'low / low-medium / medium / medium-high / high.'

	NEAR PROXIMITY (main urban fringe) <20km & medium potential	FURTHER PROXIMITY (main urban hinterland) <40km & low potential
HIGHER POPULATION DENSITY: 100-300	5) sub/ex-urban sprawl near main urban fringe 6) semi-open land near to sub-urban sprawl	7) sub/ex-urban sprawl in hinterland 8) surroundings & semi-open land near to sub/ex-urban sprawl
LOWER POPULATION DENSITY: 10-100	3) open land near main urban fringe 4) open land within main urban area	1) open land between small towns in hinterland. 2) surroundings of small towns in hinterland
